EDUCATION

Universidad Popular Autónoma del Estado de Puebla (UPAEP)
Bachelor in Software Engineering. August 2024 - July 2028

WORKING EXPERIENCE

Texas Ceta Canyon Camp & Retreat Center Summer 2026
- Retails system management in inventory, reporting for gift shop and concession stand.

CONTESTS

Mexican Girls Olympiad in Informatics (OFMI) February 2023 - Today
- Silver medal place 18° in the 3rd OFMI national contest, within 600 participants.
- Honorific mention 53° place in the 2nd OFMI national contest within 161 participants.
- Member of the organizing committee in the 4th OFMI 2024 national contest.
- Teaching C++ competitive programming and coordinating OmegaUp's contests.
- Active participant of the ICPC (International Collegiate Programming Contest) since May 2025.

Ingeniobot's contest April 2024
- Developed an autonomous line following robot, programmed navigation logic in C# using infrared sensors and assembled hardware to optimize pathfinding efficiency.

PROJECTS

Research Assistant August 2024 - Today
- Developed Azure IoT pipeline to monitor coffee fermentation with 98% data transmission reliability for ExpoCience.
- Training a YOLOv8 prototype for river waste detection, achieving 82% mAP through targeted dataset augmentation of 100+ specialized images, presented at a static web for experimentation.
- Generation of 4000+ images using Google Colab for bottles, water, trash and plants variety.

NASA Space Apps Challenge October 2025
- Conducted Exploratory Data Analysis (EDA) on exoplanet dataset to design and implement a classifier simulator based on data proximity.

Samsung Innovation Campus (SIC) September 2025 - April 2026
- Diabetes dataset cleaning and exploratory data analysis using, focusing on prediction of free/non-free diabetes.

Programming October 2024 - Today
- Hanged man game made in C++. ● Transformation of figures and spaces made in C++.
- Hotel register system made in C++. ● Graphic library system made in java.

TECHNOLOGIES

Proficient: C/C++, Git, MySQL. **Intermediate:** Java, Python, PL/SQL, Figma. **Familiar:** JavaScript, C#, HTML/CSS.

CERTIFICATES

Introduction to Intelligent Bionic Androids (P4H Bionics Academy, 2024). UBUNTU Leaders Academy (UBUNTU, 2024). Branding Personal (University of Monterrey, 2025). Leadership (SIC-CENEVAL, 2026). Food Management (Ceta Canyon, 2026). Child Safety (Ceta Canyon 2026).

LANGUAGES

Spanish (native) English (C1 TOEFL IBT) Portuguese (B1) French (A2).

HOBBIES

Reading science fiction novels, swimming, playing OSU, baking pastries, drawing kawaii characters.
